Executive Summary

Briefly tell us about your school and include details such as school size, location, number of occupancy and any other necessary information.

.....
.....
.....
.....

Project Description

What benefit or impact the project will bring to your school.

.....
.....
.....
.....

Please give data to show what results and targets you hope to achieve, for example energy or emission reduction in the table below. NOTE: Please include metrics such as watts of renewable energy capacity, or kilowatt-hour saved, and help us put this in perspective, for example indicating the percentage of schools total energy consumption to come from renewables before and after the project.

| Component | Goal (Improvement) | Metric | Current Level | Target |
|-----------|--------------------|--------|---------------|--------|
| | | | | |
| | | | | |
| | | | | |

Please describe the educational impact of the project. How will the project enhance the students' knowledge, understanding and skills?

.....

.....

.....

.....

What will be the total cost of implementing the project? If need be this can be stated in 3 phases.

Project Plan Outline

| Task | Description | Cost (FJD) | Who will carry out the task | Impact/Benefit | Timeframe (State which Month) |
|------|-------------|------------|-----------------------------|----------------|-------------------------------|
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |

Note: Also include quotations to support your justifications

Why would your project be successful? Please support your answer with available capacity manpower, expertise, availability and ease of obtaining of necessary material? What are the Challenges / risks you expect to encounter and how you intend to deal with it?

.....

.....

.....

.....

What problem does your project solve for the school, the students or the community? What research have you done into alternative solutions (for example others in your country or area), and how did you decide on this one? Please give evidence of a feasibility study, if you have any.

.....

.....

.....

.....

.....

What are the particular attributes and strengths of your school, its location and the region, that will be used to make the project work effectively? How will the project use local resources cost-effectively and creatively? In addition to technical or geographical factors, feel free to describe any innovative partnerships with groups outside the school that will be important in developing the project.

.....
.....
.....
.....

How were students involved in the planning for this project? How much of the final plan is the result of staff versus student input?

.....
.....
.....
.....

What will the students' role be in implementing the project? What will be the roles of staff and students in collaborating to run the project - in particular, how will staff provide support?

.....
.....
.....
.....

What is the school's long-term sustainability goal? In addition to the project mentioned, how are you working towards this, and what past achievements have you made?

.....
.....
.....
.....

How will you ensure the long-term benefit of the project? How will you continue to engage student groups and the broader community? For example, has a permanent student committee been created to focus on sustainability initiatives? If so, what are its duties and what has it done already?

.....
.....
.....
.....

What are your plans for maintaining the project once it is completed?

.....
.....
.....
.....

Please provide a list of people and responsibilities in the following table. (Include relationship to the school, eg. staff, student, parent, committee members)

| Name | Relationship to the School | Role |
|------|----------------------------|------|
| | | |
| | | |
| | | |

In what way is the project expected to encourage responsible global citizenship and sustainability among students, staff, parents and the wider community? What steps will be taken to ensure this?

.....
.....
.....
.....

After successfully completing this project, what will be the future plans of your school?

.....
.....
.....
.....

Thank you for your participation
