# GO GREEN PROJECT PROPOSAL

DEPARTMENT  
OF ENERGY

The Department of Energy is again running Go Green category this year where students can take part by submitting a “Go Green Project Proposal” This category has been aligned with the Zayed Future Energy Prize Competition which is a global competition for schools.

Our environment is constantly changing and becoming more polluted with a massive influx of natural disasters, warming and cooling periods, different types of weather pattern and much more. The students now have the opportunity to come up with new ideas, much more creative solutions with meaningful actions that will ensure eco friendly environment.

We believe that everyone needs to lend a helping hand and collectively we can make our world more energy efficient and sustainable. But it starts with you—the future generations. We cant do it without you.

This opportunity to create a project proposal will be once in a lifetime experience and remember this initiative will create greater impact to the forthcoming generations. Design a project proposal on how your school can go green by means such as promoting, utilizing energy efficiency and implementing renewable energy technologies with the available resources in Fiji.

## HOW TO APPLY

Your school needs to register with us **before 28th June, 2018**, and then follow the steps below:

1 Set up an internal project team of students, teachers and management, parents-if they are interested or the community you live in.

2 Collect ideas and talk to experts

3 Set up a project plan and explain what you wants to do, when you want to do it, and how much it will cost.

4 Familiarize yourself with the submission process and fill out the proposal form.

5 After you are happy with your entry, submit your proposal to the Department of Energy for assessment.

## COMPETITION PRIZES

**1st - \$1,500 Cheque,**

**2nd - \$1,000 Cheque,**

**3rd - \$500 Cheque,**
